Professional Summary

Senior Software Engineer with 5+ years of experience building scalable e-commerce solutions across multiple platforms and technology stacks. Expertise spans PHP, Laravel, Magento 2, Adobe Commerce, Python, Django, and the Akinon composable commerce platform. Adobe Certified Expert & Professional (Commerce Developer), Akinon Certified, and OWASP Security Fundamentals certified. Proven track record delivering enterprise projects for global brands, building open-source Filament 3 plugins, and collaborating effectively across cross-functional teams.

Core Skills

Current Stack	Python, Django, Django REST Framework, Akinon Commerce Platform
Backend	PHP, Laravel (8–12), Magento 2, Adobe Commerce Cloud
Admin UI	Filament 3, Livewire, Alpine.js
Frontend	HTML, CSS, JavaScript, jQuery, Tailwind CSS, Bootstrap
Databases	MySQL, PostgreSQL, MongoDB, Redis
APIs	REST API, GraphQL, Web APIs
Testing	PHPUnit, Integration Testing, Pest
Tools	Git, Docker, Composer, Postman, Beekeeper Studio
AI Tools	Claude (claude.ai · VS Code extension), Windsurf (Codeium AI IDE), GitHub Copilot, ChatGPT, Gemini, Google AI Studio
AI Usage	Code generation & scaffolding, Debugging & refactoring, Code review, Documentation, API design & planning, Test writing
IDEs	PhpStorm, PyCharm, VS Code

Work Experience

Senior Software Engineer · Codilar Technologies Pvt Ltd	Jan 2026 – Present
Akinon Commerce Platform Developer — Lulu Hypermarket GCC (Website & App)	
- Working as an Akinon platform developer on Lulu Hypermarket GCC — one of the largest retail e-commerce platforms in the Middle East, serving multiple GCC countries across web and mobile app - Backend development using Python, Django, and Akinon's composable commerce stack - Building OMS workflows, shipment extensions, and order management integrations - Integrating merchandising features, personalised content blocks, and dynamic product recommendations - Collaborating with cross-functional teams across Codilar and the Akinon partner ecosystem - Leveraging AI-assisted tools (Claude VS Code extension, Windsurf, GitHub Copilot, ChatGPT, Gemini) for code generation, debugging, refactoring, and documentation to accelerate delivery	
Software Engineer · Codilar Technologies Pvt Ltd	Jan 2023 – Jan 2026
- Delivered multiple enterprise Adobe Commerce Cloud and Magento 2 projects for international clients - Developed and maintained custom Magento 2 modules using service contracts, plugins, observers, and dependency injection - Implemented BOPIS (Buy Online Pickup In Store) and BOWIS (Buy Online While In Store) for T-Mobile USA - Built Adobe Commerce HIPAA compliance modules including encrypted API access logging - Contributed to Apple login integration and unit testing for Central Group (Thailand) - Built Laravel-based internal tools and Filament 3 admin panels for configuration and content management - Participated in code reviews, sprint planning, and guided junior developers on best practices - Applied AI-assisted development (GitHub Copilot, Claude, ChatGPT) to improve refactoring, test writing, and documentation across Adobe Commerce and Laravel projects	

Associate Software Engineer · Codilar Technologies Pvt Ltd

Apr 2021 – Jan 2023

- Developed Laravel-based internal applications including POS systems and recruitment portals
- Worked on Magento 2 projects implementing RMA, Lookbook, and admin customizations
- Assisted with backend performance optimizations, debugging, and feature enhancements

PHP / Laravel Developer Intern · Maxlore Innovation LLP

Sep 2020 – Apr 2021 | Remote

- Built a survey and feedback system using Laravel and MySQL
- Gained hands-on experience with RESTful API development and MVC architecture

Key Projects

Lulu Hypermarket — E-Commerce GCC — Python · Django · Akinon Platform

- Large-scale retail e-commerce platform (website + app) serving multiple GCC countries for Lulu Hypermarket
- OMS integrations, shipment extensions, merchandising, and personalised content blocks

Madame Coco — Akinon Platform · Python · Django

- Akinon-based commerce implementation for a major home décor brand with 450+ stores across 23 countries
- Dynamic product recommendations, personalised content, and OMS/inventory API synchronisation

T-Mobile USA — Adobe Commerce Cloud · Magento 2

- Enterprise BOPIS and BOWIS implementation — custom checkout and order processing workflows

Central Group Thailand — Adobe Commerce Cloud

- Multi-store Adobe Commerce setup — Apple login integration and unit tests for core modules

EGC Supply — Adobe Commerce · Magento 2

- Custom export adapter to split large catalogue exports into multiple CSV files

School Website & Admin Panel — Laravel · Filament 3

- Full school website with dynamic page management, menu builder, gallery, and user/role/permission system

Open Source & Filament Plugins

Filament Users Roles Permissions — Laravel · Filament 3

- User, role, and permission management plugin — listed on the official Filament plugins directory
- filamentphp.com/plugins/code-with-sps-154-users-roles-permissions

Filament App Settings — Laravel · Filament 3

- Customisable application settings panel plugin — listed on the official Filament plugins directory
- filamentphp.com/plugins/code-with-sps-154-app-settings

Docker Laravel Setup — Docker · Laravel

- Reusable Docker-based development environment for Laravel applications

Certifications

- Adobe Certified Expert – Adobe Commerce Developer (Issued Dec 2024 · Expires Dec 2026)
- Adobe Certified Professional – Adobe Commerce Developer (Issued Jul 2022)
- Akinon Partner Enablement Program – Akinon Certified Developer
- OWASP Security Fundamentals (Issued Dec 2023)

Education

Bachelor of Computer Applications (BCA) · Deva Matha Arts and Science College, Kannur University · 2017 – 2020
